## Principal's foreword

### Introduction

Emu Park State School is "Big Enough For Opportunity and Small Enough to Care".

Five core values underpin our curriculum, behaviour and educational decisions. These are:-

Respect, Fun, Effort, Partnerships & Confidence

The instructional program of this school concentrates on two basic beliefs about children and learning:-

That the child is an individual and rates of learning will vary accordingly.

That each child has a preferred learning style and no one method of instruction will suit every child.

We recognise the need to provide a wide variety of teaching and learning experiences in an endeavour to meet the needs of each child.

This report identifies our work in 2012 and the degree in which it has been achieved. The report can be obtained on the school website and in hard copy from the office.

## 2012 School Annual Report

### School progress towards its goals in 2012

2012 is the third year of our four year development cycle. Our school continues to deliver on our target to have students in year 3 and 5 NAPLAN mean above the Australian mean by 2015. Whilst positively progressing it is slower than anticipated due to significant school growth. The following priorities have been our focus for this year.

- . Quality Teaching: Continued our work on developing a succinct, informative and useful Curriculum Framework. This Framework is near completion and will reside on an internal website for teachers to access and ensure information is always up to date. Explicit Instruction continues to be a focus with all class teachers using this as their foundation pedagogy. This process is expected to be embedded into our teaching by end 2013.
- . Transitioning: Great progress achieved in this area. The end of prep is looking very similar to the start of year one. This year's transitioning was seamless despite the issues around facilities. Transition from seven to eight is progressing well with regular visits from High School staff to address students' needs and anxieties. Good transition processes around students with disabilities continues.
- . Maintenance: With the introduction of increased funding in this area large areas of need are due to be addressed early 2013. Minor maintenance has progressed well ensuring a safe and pleasant working environment.
- . Embedding Successful Programs: We have many programs that are successful in our school. These programs have been well trialled and implemented and now embedded in teacher practice. Some of these are:-
  - o Behaviour / teasing programs
  - o Values
  - o Technology
  - o Care & pride
  - o After School Sports
  - o Partnerships
  - o Electives

We now have quality curriculum documents that provide teachers with clear direction in their teaching. This has culminated into a Curriculum Framework that is web based. Substantial decrease in inappropriate behaviours including bullying. Behaviour is no longer the focus of our work. Improved classroom delivery has ensured engagement of students. Reporting occurs twice per year in the form of One School Reports. Teachers are open to parents and provide regular feedback on demand. Our school continues to improve academically in all areas with essential focus on Reading Comprehension.

### Future outlook

We continue to consolidate our improvement agenda. We have varied our focus to include algorithms. Reading comprehension remains central to student learning and academic success. Our target is to have year 3 & 5 above the Australian Average. Implementation of the Australian Curriculum is mandated and all our teachers will ensure intent and assessment is addressed in English, Mathematics, Science and History. Quality Curriculum through a developed feedback culture, concentrating on explicit instruction. All teachers will respond to data for all students identifying students early. We continue to develop partnerships in the community and embed our previous practices. These include:- Homework, Transition, Science and Environment, Values, Technology, Care and Pride & After School Sports.

## School Profile

**Coeducational or single sex:** Coeducational

**Year levels offered in 2012:** Prep - Year 7

**Total student enrolments for this school:**

	Total	Girls	Boys	Enrolment Continuity (Feb – Nov)
2010	242	105	137	90%
2011	257	133	124	92%
2012	312	154	158	89%

Student counts are based on the Census (August) enrolment collection.

### Characteristics of the student body:

Emu Park township has a low index of relative socio-economic development. Our student body is vast in performance with low to high achievement. Our school is growing very quickly and classroom space continues to be complex. Our students are generally well mannered and keen to learn.

### Average Class sizes

## Curriculum offerings

### Our distinctive curriculum offerings

We provide a curriculum that maximises achievement and is now based on the Australian Curriculum for English, Maths and Science. Essential Learnings underpin students learning in the remaining curriculum areas. Our new curriculum implemented in 2012 is very challenging for students and raises teacher expectations of student learning. We opened our Learning Engagement and Acceleration Program (LEAP). This program is unique in its facility and curriculum.

### Extra curricula activities

Gifted and extension workshops  
Instrumental Music Program  
Concert Band  
Reading Eggs  
Chess  
Manual Arts  
Cooking  
Life Education  
Drug Education  
Bike Education  
Reef Guardian Involvement  
Greening Australia Involvement  
Solar Schools Program  
Keppel Coast Interschool Sports  
Active Outside School Hours Sport  
Queensland Environmentally Sustainable

### How Information and Communication Technologies are used to assist learning.

Each student from Years 2 to 7, has their own, password protected, desktop and area to save their work. This means greater protection of assignment and projects from accidental deletion by other students.

Prep and Year 1 students have a common User Name and password to avoid the problems associated with forgetting these critical pieces of information.

Most computer skills are taught through a computer lab consisting of 28 computer and are linked to themes in the classroom.

All students are able to access the Internet, with parental permission, and learn searching skills and retrieving skills associated with researching on the Internet.

The classroom Literacy and Numeracy skills are enhanced through the use of both Internet-based and software based programmes.

The introduction of iPads, Itouches and Robotics has provided a new excitement to students learning.

There is a considerable amount of software available for classroom use to support classroom programmes in all curriculum areas including Music.

## Involving parents in their child's education

Parents are an important part of a child's education and are always welcome and encouraged to be part of our school. Parents are involved through:

- Monthly Parents & Citizens Meetings
- Weekly Newsletters
- School Website
- Class Presentation Days
- Four Reports to Parents per year
- Parent/Teacher Meetings
- Parent/Teacher Interviews
- Open Days
- Bell Park Fair

## Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

Our efforts to reduce our footprint are negated by our physical growth. Our school has almost doubled in size yet our usage has increased slightly. Water usage is responsive to rainfall as dry years necessitate increased use to ensure an attractive and inviting learning environment.

## Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2012 were \$11875.52.

The major professional development initiatives are as follows:

Most professional development has been carried out during Student Free Days and weekly staff meeting. Our focus has been on a range of areas:-

- Explicit Instruction and differentiated learning.
- Reading Comprehension
- Consistency in teaching algorithms
- Reading and responding to data.

The proportion of the teaching staff involved in professional development activities during 2012 was 100%.

### Student Attendance Distribution

The proportions of students by attendance range.

### Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

After 3 days of unexplained absences we attempt to make contact with the child's parent or guardian to ascertain the reason for absence. Information gained is recorded in our school database and further action is taken if necessary.

Rolls are marked by all classes twice per day. This occurs at the start of the day and returning to class after the last break.

During the marking procedure students must be present in the class to be checked as present. Late students must sign and at the administration building and records adjusted by administration team.

## Achievement – Closing the Gap

Year 3 students in Reading have continued to increase over the past years. Indigenous students have followed this same trend but is less reliable due to the small numbers of students. The gap in reading in 2012 is large. Writing and Numeracy results show that Indigenous students perform lower than Non Indigenous but the gap is small.

Year 3 and Year 7 writing results show minimal to a negative gap. Reading and Numeracy show a gap that is reducing.

Attendance for our Indigenous is not as high as Non Indigenous. Work in this area continues with little positive result yet.

% of all student attendance <85% - 12.5%

% of indigenous student attendance <85% - 22.2%
