Emu Park State School

Student Code of Conduct

2021 to 2024

Every student succeeding

Every student succeeding is the shared vision of Queensland state schools. Our vision shapes regional and school planning to ensure every student receives the support needed to belong to the school community, engage purposefully in learning and experience academic success.

Queensland Department of Education
State Schools Strategy 2020-2024

Purpose

Emu Park State School is committed to providing a safe, respectful and disciplined learning environment for all students, staff, parents and visitors.

The Emu Park State School Student Code of Conduct sets out the responsibilities and processes we use in our school to promote a productive, effective whole school approach to discipline.

Its purpose is to facilitate high standards of behaviour from all in the school community, ensuring learning and teaching in our school is prioritised, where all students are able to experience success and staff enjoy a safe workplace.

Emu Park State School is committed to ensuring all young Queenslanders have a right to and receive a quality education.

Our aim is to create the conditions for each learner to progress towards responsible self-management, whilst learning about how and why people behave the way they do. Because we focus on catering for individual differences, we realise that all children will move towards this goal at their own pace and that they will also have individual needs along the way.

The use of a non-coercive approach that builds relationships, encourages self-evaluation and focuses on quality is evident in all we do.

At Emu Park State School we believe, children learn best in a supportive environment that caters for their individual needs. A stable and supportive learning environment therefore supports our focus on quality teaching and learning. We want our students to be socially, emotionally and academically competent.
Learning and Behaviour Statement

Evidence based research shows that when students are happy and healthy their capacity to engage is enhanced. Students develop a growth mindset and improve their ability to cope in the complex world around them. Our aim is to develop socially, emotionally and academically competent beings, and enable students to reach their potential and flourish.

Emu Park State School operates by the following beliefs:

- all children have the right to learn in an environment with little disruption
- education is a life-long process
- gender is not a determinant of capacity to learn
- children with disabilities are encouraged to access all educational opportunities
- children learn at different rates
- students, parents and teachers are part of a team
- the school is a focal point of the community
- good manners and respect are expected
- children learn by a variety of activities
- our school community provides appropriate social role models
- an attractive environment enhances learning
- the child’s self-esteem is developed
- personal safety is encouraged.

Staff and students at Emu Park State School have the right to work to their potential, free from disruption, abuse or threat in a safe and supportive environment. To enable this productive learning to occur, we believe different learning styles and abilities must be catered for and appropriate behaviours need to be taught, modelled, encouraged and developed. Positive behaviours are to be rewarded and negative behaviours are to be corrected with the use of “Natural Consequences”. Ultimately, each individual must be responsible for his/her own actions.

Parental consultation, support and involvement are essential to the Supportive School Environment at this school.

Student Wellbeing and Support Network

Whole Being Education is Emu Park State School's program that synchronises our six habits to enrich the social, emotional and academic competence of every being in our community. The program aims to develop a 'way of being' by focusing on six habits: Happy, Grateful, Resilient, Aware, Positive and Healthy. The Whole Being Program is based upon the principles of neuro-science and positive psychology to intentionally develop "Whole Being".

Our journey commenced with the acceptance that a happy child is more likely to engage with our curriculum and school community. This simple thought has now grown to a program that combines our curriculum and pedagogy with mindfulness. We believe that the success of our
Whole Being program relies on the support of our teachers, students and the wider community to 'Be Here', 'Be Mindful', and 'Be Awesome'. Encompassing the six habits into our daily lives encourages our school community to be more mindful of practising an inherent 'way of living'. Giving us the ability to be mindful of the way in which our beliefs influence our thoughts, our thoughts influence our words, our words influence our actions, our actions influence our habits, our habits influence our values, and our values become our destiny. Our six habits are explicitly taught across all year levels creating "awesome" beings.
Whole School Approach to Discipline

At Emu Park State School we emphasise the importance of directly teaching students the behaviours we want them to demonstrate at school. Communicating behavioural expectations is a form of universal behaviour support - a strategy directed towards all students designed to prevent problem behaviour and provides a framework for responding to unacceptable behaviour.

These expectations are communicated to students via a number of strategies including:
- Behaviour lessons conducted by classroom teachers. The ‘School Pride’ unit is implemented in all classrooms at the beginning of the school year and targets learning of our school values and school rules, as well as strategies to deal with bullying behaviours.
- Reinforcement of learning from behaviour lessons on School Assemblies and during active supervision by staff during classroom and non-classroom activities.

Our code is based on five values:
- Respect: *Self, others and the environment*
- Fun: *Learn whilst having fun and being safe*
- Effort: *In everything we do*
- Partnerships: *Students, families, staff and community working together*
- Confidence: *To be the best we can*

And six habits:
- Happy
- Grateful
- Resilient
- Aware
- Positive
- Healthy

Our rules during instruction are:
- Use your manners
- Listen attentively
- Wait for your turn to speak
- Leave others’ property alone
- Walk when moving around the classroom
- Follow teacher instruction without complaint
- Be cheerful
- Think before doing
- Always strive to do your best
- Be friendly and polite
- Be honest
• Have a go
• Compliment and encourage others

Our rules during play are:
• Follow teacher instructions willingly
• Think before doing
• Play in designated areas
• Walk on the concrete
• Wear a hat in the sun
• Be friendly and polite
• Take pride in your surroundings
• Ensure sports equipment is returned
• Toilet, drink and line up before the second bell

Our school provides students with the following initiatives that support strong social and emotional competencies.

Whole Being

Whole Being Education is Emu Park State School's program that synchronises our six habits to enrich the social, emotional and academic competence of every being in our community. The program aims to develop a 'way of being' by focusing on six habits: Happy, Grateful, Resilient, Aware, Positive and Healthy. The Whole Being Program is based upon the principles of neuro-science and positive psychology to intentionally develop "Whole Being". Our journey commenced with the acceptance that a happy child is more likely to engage with our curriculum and school community. This simple thought has now grown to a program that combines our curriculum and pedagogy with mindfulness. We believe that the success of our Whole Being program relies on the support of our teachers, students and the wider community to 'Be Here', 'Be Mindful', and 'Be Awesome'. Encompassing the six habits into our daily lives encourages our school community to be more mindful of practising an inherent 'way of living'. Giving us the ability to be mindful of the way in which our beliefs influence our thoughts, our thoughts influence our words, our words influence our actions, our actions influence our habits, our habits influence our values, and our values become our destiny. Our six habits are explicitly taught across all year levels creating "awesome" beings.
The Zone Chart

Our Zone Chart is a five step visual that allows students to see exactly where they sit on a reactive social / behavioural scale. The zone is in every class room across the school.

Positive behaviour is rewarded through the upward progression on a scale and a small negotiated reward at the end of the day for those students who finish in the zone.

Anti-social or negative behaviour causes downward movement on the five step scale and attracts a range of contextual consequences.

A small sheet with The Zone Chart is sometimes sent home showing a student’s end of day position. This is used when increasing a parent’s awareness of student behaviour.

Some basic rules apply to its use in the classroom:
- All students start in the cloud at the beginning of each day.
- Direction of arrows show possible movement.
- Students may move directly to step three if behaviour warrants.
- Consequences are to be related to the action.
- Movement upwards from steps two or three may be negotiated.

Supported and Rostered Play

Supported Play is a way of addressing social issues and generally providing students with a break from one another. Children still have the same time and game opportunities as other students but the play area is designated. It is generally monitored through the use of a card system.

Zones of Regulation

The Zones are a systematic approach used to teach self-regulation by categorising states of alertness and feelings into four coloured zones. This framework provides strategies to teach students to become more aware of and independent in controlling their emotions and impulses, manage their sensory needs and improve their ability to problem solve conflicts. Life is 10% what happens to us and 90% how we react to it. (Charles Swindoll)

Our feelings and state determine our zone:
- The Red Zone is used to describe extremely heightened states of alertness and intense emotions. A person may be elated or experiencing anger, rage, explosive behaviour, devastation or terror when in the Red Zone.
- The Yellow Zone is used to describe a heightened state of alertness and elevated emotions, however one has more control when they are in the Yellow Zone. A person may be experiencing stress, frustration, anxiety, excitement, silliness, the wiggles or nervousness when in the Yellow Zone.
• The Green Zone is used to describe a calm state of alertness. A person may be described as happy, focused, content or ready to learn when in the Green Zone. This is the zone where optimal learning occurs.

• The Blue Zone is used to describe low states of alertness and down feelings such as when one feels sad, tired, sick or bored.

A formal recognition and monitoring system.

Emu Park State School implements a range of proactive and preventative processes and strategies to support student behaviour:

• Induction programs in our Responsible Behaviour Plan for Students is delivered to new students as well as new and relief staff.

• Individual support profiles developed for students with high behavioural needs, enabling staff to make the necessary adjustments to support these students consistently across all classroom and non-classroom settings.

• A comprehensive Award Program.
  o Personal Achievement Award: Student achievement is determined by whether or not students have been consistently following school rules. These are based directly on our school values and are outlined in the table on the following page. There are four levels of award to achieve – Bronze, Silver, Gold and Platinum.
  o Aussie of the Month: Aussie of the Month and their parents are invited for morning tea with the School Principal. Students are nominated by their class teacher for outstanding and consistent demonstration of our school values.
  o Values Awards: Students are provided with raffle tickets if seen doing the right thing. Seven names are picked randomly from the box during Friday assembly to receive a small prize.
  o Tidiest Classroom Award: This award is chosen by our school cleaners. The class with the tidiest area receives a small trophy to keep for the week.
  o Academic Award: This is a very large trophy that is awarded to the class that shows the most improvement in an academic area. It is awarded twice per year.
  o End of Year Bursary: Each year, a variety of community organisations and families donate bursaries to our school to present to winning applicants at end of year school ceremonies.
  o LEAP Awards: LEAP Projects are planned out across a school year. Students are awarded points and receive LEAP Pins to recognise their achievement. Our five levels of awards are reflective of our school colours and are named after gem stones. Each gem has certain properties that Students are progressing towards - Citrine, Aquamarine, Emerald, Sapphire and Obsidian.
  o Year 6 Leadership: All year 6 students are encouraged to meet the requirements of being a leader. A card consisting of indicators is signed off by a range of staff to show adherence to our school rules and values. These leaders receive special privileges throughout the year.

Management plans for some students.

The essential components of this plan are:

• Documented knowledge, analysis, and understanding of the students (these should be notes kept with teacher’s class lists and planning)

• An Education Plan

• An Acknowledgement Plan (sits within our Zone Chart)

• A Correction Plan (sits within our Zone Chart)
Consideration of Individual Circumstances

Emu Park State School take into account students’ individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what punishment another student might have received, we will not disclose or discuss this information with anyone but the student’s family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the principal to discuss the matter.

Differentiated and Explicit Teaching

Emu Park State School is a disciplined school environment that provides differentiated teaching to respond to the learning needs of all students. This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practise.

Teachers at Emu Park State School vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.
There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

### Focused Teaching

Approximately 15% of all students in any school or classroom may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and focused teaching is provided to help them achieve success.

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour.

Support staff, including teachers with specialist expertise in learning, language or development, work collaboratively with class teachers at Emu Park State School to provide focused teaching. Focused teaching is aligned to the PBL Expectations Matrix, and student progress is monitored by the classroom teacher/s to identify those who:
- no longer require the additional support
- require ongoing focused teaching
- require intensive teaching

### Intensive Teaching

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made based on data collected from their teacher or teachers, and following consultation with the student’s family.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student. This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.
Students who require intensive teaching will be assigned an individual mentor at the school that will oversee the coordination of their program, communicate with stakeholders and directly consult with the student.

**Disciplinary Consequences**

The disciplinary consequences model used at Emu Park State School follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations.

The majority of students will be confident and capable of meeting established expectations that are clear, explicitly taught and practised. In-class corrective feedback, sanctions and rule reminders may be used by teachers to respond to low-level or minor problem behaviours.

Some students will need additional support, time and opportunities to practise expected behaviours. Approximately 15% of the student population may experience difficulty with meeting the stated expectations, and even with focussed teaching, in-class corrective feedback, sanctions and rule reminders continue to display low-level problem behaviour.

For a small number of students, approximately 2-5%, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. This may be needed throughout the school year on a continuous basis. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an out of school suspension or exclusion is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

**Differentiated**

Class teacher provides in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include:

- Pre-correction (e.g. "Remember, walk quietly to your seat")
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. “Hand up when you want to ask a question”)
- Rule reminders (e.g. “When the bell goes, stay seated until I dismiss you”)
- Explicit behavioural instructions (e.g. “Pick up your pencil”)
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- Revised seating plan and relocation of student/s
- Individual positive reinforcement for appropriate behaviour
- Classwide incentives
- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second ‘take-up’ time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. “Which one do you want to start with?”)
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. “I’m not sure what is the next step, who can help me?”)
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)
- Detention

**Focussed**

Class teacher is supported by other school-based staff to address in-class problem behaviour. This may include:
- Functional Behaviour Assessment
- Individual student behaviour support strategies (e.g. Student behaviour plan)
- Targeted skills teaching in small group
- Token economy
- Detention
- Behavioural contract
- Counselling and guidance support
- Self-monitoring plan
- Check in Check Out strategy
- Teacher coaching and debriefing
- Referral to Student Support Network for team based problem solving
- Stakeholder meeting with parents and external agencies

**Intensive**

School leadership team work in consultation with Student Support Network to address persistent or ongoing serious problem behaviour. This may include:
- Functional Behaviour Assessment based individual support plan
- Complex case management and review
- Stakeholder meeting with parents and external agencies including regional specialists
- Temporary removal of student property (e.g. mobile phone)
- Short term suspension (up to 10 school days)
- Long term suspension (up to 20 school days)
- Charge related suspension (student has been charged with a serious criminal offence is suspended from school until the charge has been dealt with by the relevant justice authorities)
- Suspension pending exclusion (student is suspended from school pending a decision by the Director-General or delegate (principal) about their exclusion from school)
- Exclusion (student is excluded from a particular state school site, a group of state schools or all state schools in Queensland for a defined period of time or permanently)
- Cancellation of enrolment for students older than compulsory school age who refuse to participate in the educational program provided at the school.

**School Disciplinary Absences**

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address poor student behaviour. There are four types of SDA:
- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Emu Park State School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal when other options have been exhausted or the student’s behaviour is so dangerous that continued attendance at the school is considered a risk to the safety or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 schools days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

**Re-entry following suspension**

Students who are suspended from Emu Park State School may be invited to attend a re-entry meeting on the day of their scheduled return to school. The main purpose of this meeting is to welcome the student, with their parent/s, back to the school. It is not a time to review the student’s behaviour or the decision to suspend, the student has already received a punishment through their disciplinary absence from school. The aim of the re-entry meeting is for school staff to set the student up for future success and strengthen home-school communication.

It is not mandatory for the student or their parents to attend a re-entry meeting. It may be offered as a support for the student to assist in their successful re-engagement in school following suspension.
**Arrangements**
The invitation to attend the re-entry meeting will be communicated via telephone and in writing, usually via email. Re-entry meetings are short, taking less than 10 minutes, and kept small with only the Principal or their delegate attending with the student and their parent/s.

A record of the meeting is saved in OneSchool, under the Contact tab, including any notes or discussions occurring during the meeting.

**Structure**
The structure of the re-meeting should follow a set agenda, shared in advance with the student and their family. If additional items are raised for discussion, a separate arrangement should be made to meet with the parent/s at a later date and time. This meeting should be narrowly focussed on making the student and their family feel welcome back into the school community.

Possible agenda:
- Welcome back to school
- Check in on student wellbeing
- Discuss any recent changes to school routine or staffing
- Offer information about supports available (e.g. guidance officer)
- Set a date for follow-up
- Thank student and parent/s for attending
- Walk with student to classroom

**Reasonable adjustments**
In planning the re-entry meeting, school staff will consider reasonable adjustments needed to support the attendance and engagement of the student. This includes selecting an appropriate and accessible meeting space, organising translation or interpretation services or supports (e.g. AUSLAN), provision of written and/or pictorial information and other relevant accommodations. The inclusion of support staff, such as guidance officers or Community Education Counsellors, may also offer important advice to ensure a successful outcome to the re-entry meeting.

**Restrictive Practices**
School staff at Emu Park State School need to respond to student behaviour that presents a risk of physical harm to the student themselves or others. It is anticipated that most instances of risky behaviour can be de-escalated and resolved quickly. On some rarer occasions, a student’s behaviour may continue to escalate and staff need to engage immediately with positive and proactive strategies aimed at supporting the student to manage their emotional arousal and behaviour.

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.
The department’s **Restrictive practices procedure** is written with consideration for the protection of everyone’s human rights, health, safety and welfare. There are six fundamental principles:

1. Regard to the human rights of those students  
2. Safeguards students, staff and others from harm  
3. Ensures transparency and accountability  
4. Places importance on communication and consultation with parents and carers  
5. Maximises the opportunity for positive outcomes, and  
6. Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the **Restrictive practices procedure**.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

### Critical Incidents

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

A critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool.

For unexpected critical incidents, staff should use basic defusing techniques:
1. Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving into the student’s space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.

2. Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.

3. Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.

4. Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students’ attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.

Debrief: At an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

---

### Related Procedures and Guidelines

These are related procedures or guidelines which school staff use to inform decisions and actions around matters associated with students wellbeing, behaviour and learning.

- Cancellation of enrolment
- Complex case management
- Customer complaints management policy and procedure
- Disclosing personal information to law enforcement agencies
- Enrolment in state primary, secondary and special schools
- Hostile people on school premises, wilful disturbance and trespass
- Inclusive education
- Police and Child Safety Officer interviews and searches with students
- Restrictive practices
- Refusal to enrol – Risk to safety or wellbeing
• Student discipline
• Student dress code
• Student protection
• Supporting students' mental health and wellbeing
• Temporary removal of student property by school staff
• Use of ICT systems
• Using mobile devices
Emu Park State School has tailored school discipline policies designed to ensure students, staff and visitors work cooperatively to create and maintain a supportive and safe learning environment. Please ensure that you familiarise yourself with the responsibilities for students, staff and visitors outlined in the following policies:

- Temporary removal of student property
- Use of mobile phones and other devices by students
- Preventing and responding to bullying
- Appropriate use of social media

### Temporary removal of student property

The removal of any property in a student’s possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff and students. The Temporary removal of student property by school staff procedure outlines the processes, conditions and responsibilities for state school principals and school staff when temporarily removing student property.

In determining what constitutes a reasonable time to retain student property, the principal or state school staff will consider:

- the condition, nature or value of the property
- the circumstances in which the property was removed
- the safety of the student from whom the property was removed, other students or staff members
- good management, administration and control of the school.

The Principal or state school staff determine when the temporarily removed student property can be returned, unless the property has been handed to the Queensland Police Service.

The following items are explicitly prohibited at Emu Park State School and will be removed if found in a student’s possession:

- illegal items or weapons (e.g. guns, knives*, throwing stars, brass knuckles, chains)
- imitation guns or weapons
- potentially dangerous items (e.g. blades, rope)
- drugs** (including tobacco)
- alcohol
- aerosol deodorants or cans (including spray paint)
- explosives (e.g. fireworks, flares, sparklers)
- flammable solids or liquids (e.g. fire starters, mothballs, lighters)
- poisons (e.g. weed killer, insecticides)
- inappropriate or offensive material (e.g. racist literature, pornography, extremist propaganda).
* No knives of any type are allowed at school, including flick knives, ballistic knives, sheath knives, push daggers, trench knives, butterfly knives, star knives, butter knives, fruit knives or craft knives, or any item that can be used as a weapon, for example a chisel. Knives needed for school activities will be provided by the school, and the use of them will be supervised by school staff. In circumstances where students are required to have their own knives or sharp tools for particular subjects or vocational courses, the school will provide information about the procedures for carrying and storing these items at school.

** The administration of medications to students by school staff is only considered when a prescribing health practitioner has determined that it is necessary or when there is no other alternative in relation to the treatment of a specific health need. Schools require medical authorisation to administer any medication to students (including over-the-counter medications such as paracetamol or alternative medicines).

Responsibilities

State school staff at Emu Park State School
- do not require the student's consent to search school property such as lockers, desks or laptops that are supplied to the student through the school;
- may seize a student's bag where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, prior to seeking consent to search from a parent or calling the police;
- consent from the student or parent is required to examine or otherwise deal with the temporarily removed student property. For example, staff who temporarily remove a mobile phone from a student are not authorised to unlock the phone or to read, copy or delete messages stored on the phone;
- there may, however, be emergency circumstances where it is necessary to search a student's property without the student's consent or the consent of the student's parents (e.g. to access an EpiPen for an anaphylactic emergency);
- consent from the student or parent is required to search the person of a student (e.g. pockets or shoes). If consent is not provided and a search is considered necessary, the police and the student's parents should be called to make such a determination.

Parents of students at Emu Park State School
- ensure your children do not bring property onto schools grounds or other settings used by the school (e.g. camp, sporting venues) that:
  - is prohibited according to the Emu Park State School Student Code of Conduct
  - is illegal
  - puts the safety or wellbeing of others at risk
  - does not preserve a caring, safe, supportive or productive learning environment
  - does not maintain and foster mutual respect;
- collect temporarily removed student property as soon as possible after they have been notified by the Principal or state school staff that the property is available for collection.

Students of Emu Park State School
• do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
  o is prohibited according to the Emu Park State School’s Code of Conduct
  o is illegal
  o puts the safety or wellbeing of others at risk
  o does not preserve a caring, safe, supportive or productive learning environment
  o does not maintain and foster mutual respect;
• collect their property as soon as possible when advised by the Principal or state school staff it is available for collection.

Use of mobile phones and other devices by students
This policy reflects the importance our school places on students displaying courtesy, consideration and respect for others whenever they are using personal technology devices.

Certain Personal Technology Devices Banned From School
Students must not bring valuable personal technology devices like cameras, digital video cameras, mobile phones, iPods or MP3 players to school as there is a risk of damage or theft. Such devices will be confiscated by school staff and may be collected at the end of the day from the school office. Breaches of this prohibition may result in discipline. Devices potentially containing evidence of criminal offences may be reported to the Queensland Police Service (the Police). In such cases the Police may take possession of such devices for investigation purposes and students and parents will be advised to contact the Police directly.

Personal Technology Device Etiquette
Bringing personal technology devices to school is not encouraged by Emu Park State School because of the potential for theft and general distraction and/or disruption associated with them.

Recording Voice and Images
Every member of the school community should feel confident about participating fully and frankly in all aspects of school life without concern that their personal privacy is being invaded by them being recorded without their knowledge or consent. We uphold the value of trust and the right to privacy. Students using personal technology devices to record inappropriate behaviours or incidents (such as vandalism, fighting, bullying, staged fighting or pranks etc) for the purpose of dissemination among the student body or outside the school, by any means (including distribution by phone or internet posting), builds a culture of distrust and disharmony.

Students must not record images anywhere in the school grounds particularly change rooms, toilets or any other place where a reasonable person would expect to be afforded privacy.

Recording of events in class is not permitted unless express consent is provided by the class teacher.

A student at school who uses a personal technology device to record private conversations, ordinary school activities (apart from social functions like graduation ceremonies) or violent, illegal or embarrassing matter capable of bringing the school into public disrepute is considered to be in breach of this policy.

Even where consent is obtained for such recording, the school will not tolerate images or sound captured by personal technology devices on the school premises.
or elsewhere being disseminated to others, if it is done for the purpose of causing embarrassment to individuals or the school, for the purpose of bullying or harassment, including racial and sexual harassment, or where without such intent a reasonable person would conclude that such outcomes may have or will occur.

Students involved in:
recording; and/or disseminating material (through text messaging, display, internet uploading etc); and/or knowingly being a subject of a recording. Breach of this policy may be subject to discipline (including suspension and recommendation for exclusion). Students should note that the recording or dissemination of images that are considered indecent (such as nudity or sexual acts involving children) is against the law and if detected by the school will result in a referral to the Police.

Text Communication
The sending of text messages that contain obscene language and/or threats of violence may amount to bullying and or harassment or even stalking and will subject the sender to discipline and possible referral to the Police. Students receiving such text messages at school should ensure they keep the message as evidence and bring the matter to the attention of Emu Park State School’s administration office.

Assumption of Cheating
Personal technology devices may not be taken into or used by students at exams or during class assessment unless expressly permitted by staff. Staff will assume students in possession of such devices during exams or assessments are cheating. Disciplinary action will be taken against any student who is caught using a personal technology device to cheat during exams or assessments.

Recording Private Conversations and the Invasion of Privacy Act 1971
It is important that all members of the school community understand that under the Invasion of Privacy Act 1971, ‘a person is guilty of an offence against this Act if the person uses a listening device to overhear, record, monitor or listen to a private conversation’. It is also an offence under the Act for a person who has overheard, recorded, monitored or listened to a conversation to which he/she is not a party to publish or communicate the substance or meaning of the conversation to others. Students need to understand that some conversations are private and therefore to overhear, record, monitor or listen to such private conversations may be in breach of this Act, unless consent to the recording is appropriately obtained.

Special Circumstances Arrangement
Students who require the use of a personal technology device in circumstances that would contravene this policy (for example to assist with a medical condition or other disability or for a special project) should negotiate a special circumstances arrangement with the Principal.

* Personal Technology Devices includes, but is not limited to, games devices (such as Portable gaming devices, Tamagotchis®, laptop computers, PDAs, Blackberrys®, cameras and/or voice recording devices (whether or not integrated with a mobile phone or MP3 player), mobile telephones, IPods® and devices of a similar nature.

---

1 *Education Queensland does not tolerate bullying behaviour at schools. This includes bullying conducted by electronic means.*
At all times students, while using ICT facilities and devices supplied by the school, will be required to act in line with the requirements of the Emu Park State School Student Code of Conduct. In addition students and their parents should:

- understand the responsibility and behaviour requirements (as outlined by the school) that come with accessing the department's ICT network facilities
- ensure they have the skills to report and discontinue access to harmful information if presented via the internet or email
- be aware that:
  - access to ICT facilities and devices provides valuable learning experiences for students and supports the school's teaching and learning programs
  - the school is not responsible for safeguarding information stored by students on departmentally-owned student computers or mobile devices
  - schools may remotely access departmentally-owned student computers or mobile devices for management purposes
  - students who use a school's ICT facilities and devices in a manner that is not appropriate may be subject to disciplinary action by the school, which could include restricting network access
  - despite internal departmental controls to manage content on the internet, illegal, dangerous or offensive information may be accessed or accidentally displayed
  - teachers will always exercise their duty of care, but avoiding or reducing access to harmful information also requires responsible use by the student.

Preventing and responding to bullying

The agreed national definition for Australian schools describes bullying as

- ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm;
- involving an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening;
- happening in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records);
- having immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Behaviours that do not constitute bullying include:

- mutual arguments and disagreements (where there is no power imbalance)
- not liking someone or a single act of social rejection
- one-off acts of meanness or spite
- isolated incidents of aggression, intimidation or violence.

However, these conflicts are still considered serious and need to be addressed and resolved. At Emu Park State School our staff will work to quickly respond to any matters raised of this nature in collaboration with students and parents.
Emu Park State School strives to create positive, predictable environments for all students at all times of the day. The disciplined and teaching environment that we are creating is essential to:

- achieving overall school improvement, including the effectiveness and efficiency of our student support procedures
- raising achievement and attendance
- promoting equality and diversity and
- ensuring the safety and well-being of all members of the school community.

There is no place for bullying in our school. Research indicates that both those being bullied and those who bully are at risk for behavioural, emotional and academic problems. These outcomes are in direct contradiction to our school community’s goals and efforts for supporting all students.

Bullying behaviours that will not be tolerated at Emu Park State School include name-calling, taunting, mocking, making offensive comments, kicking, hitting, pushing, taking belongings, inappropriate text messaging, sending offensive or degrading images by phone or internet, producing offensive graffiti, gossiping, excluding people from groups, and spreading hurtful and untruthful rumours.

Bullying may be related to:

- race, religion or culture
- disability
- appearance or health conditions
- sexual orientation
- sexist or sexual language
- young carers or children in care.

At Emu Park State School there is broad agreement among students, staff and parents that bullying is observable and measurable behaviour. When considering whether or not bullying has occurred, we will therefore avoid speculation on the intent of the behaviour, the power of individuals involved, or the frequency of its occurrence. Whether bullying behaviour is observed between students of equal or unequal power, whether it occurs once or several times, and whether or not the persons involved cite intimidation, revenge, or self-defence as a motive, the behaviour will be responded to in similar fashion, that is, as categorically unacceptable in the school community.

Rationale

Research indicates that many problem behaviours are peer-maintained. That is, peers react to bullying in ways that may increase the likelihood of it occurring again in the future. Reactions include joining in, laughing, or simply standing and watching, rather than intervening to help the person being bullied. Whilst our school would never encourage students to place themselves at risk, our anti-bullying procedures involve teaching the entire school a set of safe and effective response to all problem behaviour, including bullying, in such a way that those who bully are not socially reinforced for demonstrating it.

The anti-bullying procedures at Emu Park State School are an addition to our already research-validated schoolwide positive behaviour support processes. This means that all students are being explicitly taught the expected school behaviours and receiving high levels of social acknowledgement for doing so. Adding lessons on bullying and how to prevent and respond to it is a subset of procedures that our students are already accustomed to.
Prevention

Attempting to address specific problem behaviours will not be successful if the general level of disruptive behaviour in all areas of our school is not kept to a low level. Therefore, our schoolwide universal behaviour support practices will be maintained at all times. This will ensure that:

- Our universal behaviour support processes will always remain the primary strategy for preventing problem behaviour, including preventing the subset of bullying behaviour
- All students know the school rules and have been taught the expected behaviours attached to each rule in all areas of the school
- All students have been or are being taught the specific routines in the nonclassroom areas, from exiting the classroom, conducting themselves in accordance with the school expectations in the playground and other areas, to re-entering their classrooms
- All students are receiving high levels of positive reinforcement for demonstrating expected behaviours, including those associated with following our routines, from all staff in the nonclassroom areas of the school
- A high level of quality active supervision is a permanent staff routine in the nonclassroom areas. This means that duty staff members are easily identifiable and are constantly moving, scanning and positively interacting as they move through the designated supervision sectors of the nonclassroom areas.

The student curriculum modules of the anti-bullying process consist of a relationship unit taught by all teachers in all classrooms at the beginning of each year. At all times simultaneous instruction is our goal, in order to maintain consistency of skill acquisition across the school.

Research indicates that a common outcome of anti-bullying programming is an improvement in understanding of bullying but little change in the frequency or nature of actual bullying behaviour. One of the reasons cited for this outcome is the lack of behavioural rehearsal in the programming. The anti-bullying process at Emu Park State School takes care to combine knowledge with practice in a process of active learning, so that students understand by ‘doing’ as much as by ‘knowing’.

Emu Park State School uses behavioural data for decision-making. This data is entered into our database on a daily basis and can be recalled as summary reports at any time. This facility allows the school to track the effectiveness of its anti-bullying process, to make any necessary adjustments, and to identify specific bullying behaviours that may need to be revisited or revised in the instructional process.

Cyberbullying

Cyberbullying is treated at Emu Park State School with the same level of seriousness as in-person bullying. The major difference with cyberbullying however, is that unlike in-person bullying, cyberbullying follows students into their community, their homes and their bedrooms, giving them no opportunity to escape the harassment or abuse during the evening, weekends or holidays.
In the first instance, students or parents who wish to make a report about cyberbullying should approach the regular class teacher.

It is important for students, parents and staff to know that state school principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds. This includes cyberbullying. Parents and students who have concerns about cyberbullying incidents occurring during school holidays should immediately seek assistance through the Office of the e-Safety Commissioner or the Queensland Police Service.

Students enrolled at Emu Park State School may face in-school disciplinary action, such as detention or removing of privileges, or more serious consequences such as suspension or exclusion from school for engaging in behaviour that adversely affects, or is likely to adversely affect, other students or the good order and management of the school. This includes behaviour such as cyberbullying which occurs outside of school hours or settings, for example on the weekend or during school holidays. It also applies to inappropriate online behaviour of enrolled students that is directed towards other community members or students from other school sites.

Parents or other stakeholders who engage in inappropriate online behaviour towards students, staff or other parents may be referred to the Office of the e-Safety Commissioner and/or the Queensland Police Service. State school staff will be referred for investigation to the Integrity and Employee Relations team in the Department of Education. Any questions or concerns about the school process for managing or responding to cyberbullying should be directed to Dean of Students, Malcolm Smith.

**Cybersafety and Reputation Management (CRM)**

The Department of Education employs a dedicated team of experts to assist in maintaining the integrity of the department's reputation with regards to cybersafety and reputation management issues, effectively leading the development and implementation of departmental cybersafety processes.

This team provides direct support for schools to respond to concerns of inappropriate online behaviour and misuse of information and communication technology.

The team provides a [guide for parents](#) with important information about cybersafety and cyberbullying, and suggestions about what you can do if your child is a target or responsible for inappropriate online behaviour.

The team has also developed a [Cyberbullying and reputation management](#) resource (Department employees only) to assist principals in incident management.

For more information about cybersafety sessions at your school, or for assistance with issues relating to online behaviour, contact the [team](#) (Department employees only).

**Student Intervention and Support Services**

Emu Park State School recognises the need to provide intervention and support to all students involved in incidents of bullying, including cyberbullying.
Students who have been subject or witness to bullying have access to a range of internal support staff, as identified in the Student Support Network section earlier in this document. Students are, however, also encouraged to approach any staff member with whom they feel comfortable sharing their concerns, regardless of their role in the school. All staff at Emu Park State School are familiar with the response expectations to reports of bullying, and will act quickly to ensure students’ concerns are addressed. Depending on the nature of the reported bullying incident, a formal plan of action may be developed and documented to support the implementation of strategies to assist the student.

Students who engage in bullying behaviours towards others will also be provided with support to assist them to use more socially acceptable and appropriate behaviours in their interactions. This includes counselling, social development programs, referral to mental health services or involvement in a restorative justice strategy. School disciplinary measures may also be used to reinforce the seriousness with which the community takes all incidents of bullying. These measures may include internal school suspension, withdrawal from social events or celebrations or more severe punishments such as suspension or exclusion from school.

**Appropriate use of social media**

The internet, mobile phones and social media provide wonderful opportunities for students to network and socialise online. While these technologies provide positive platforms for sharing ideas, they also have the potential to cause pain and suffering to individuals, groups or even whole communities.

It’s important to remember that sometimes negative comments posted about the school community have a greater impact than expected. This guide offers some information about how to use social media in relation to comments or posts about the school community. Reputations of students, teachers, schools, principals and even parents can be permanently damaged — and in some cases, serious instances of inappropriate online behaviour are dealt with by police and the court system.

Being aware of a few simple strategies can help keep the use of social media positive and constructive:

- Before you post something online, ask yourself if the community or individual really need to know. Is it relevant, positive and helpful?
- Remember that what you post online is a direct reflection of who you are. People will potentially form lasting opinions of you based on what you post online.
- Be a good role model. If things get heated online consider logging out and taking a few moments to relax and think. Hasty, emotive responses could inflame situations unnecessarily.
- Be mindful when commenting, try to keep general and avoid posting anything that could identify individuals.
- A few years ago parents may have discussed concerns or issues with their friends at the school gate. Today with the use of social media, online discussions between you and your close friends can very quickly be shared with a much wider audience, potentially far larger than intended.
- Taking a few moments to think about the content you are about to post could save upset, embarrassment, and possible legal action.
• As a parent you have a role in supervising and regulating your child’s online activities at home and its impact on the reputation and privacy of others. Parents are their child’s first teachers — so they will learn online behaviours from you.

Is it appropriate to comment or post about schools, staff or students?

Parental and community feedback is important for schools and the department. If you have a compliment, complaint or enquiry about an issue at school, the best approach is to speak directly to the school about the matter, rather than discussing it in a public forum.

While many schools use social media to update parents of school notices, the department prefers that parents contact schools directly with a compliment, complaint or enquiry due to privacy considerations. Imagine if your doctor, accountant or banking institution tried to contact you to discuss important matters via Facebook.

If you have raised an issue with a school or know that another person has, consider refraining from discussing those details on social media, particularly the names of anyone involved.

Keep comments calm and polite, just as you would over the telephone or by email. If you encounter negative or derogatory content online which involves the school, hinders a child’s learning and/or affects the school community at large, contact the school principal.

Possible civil or criminal ramifications of online commentary

A serious instance of inappropriate online behaviour may constitute a criminal offence and become a police matter. For example, online content may substantiate the offence of ‘using a carriage service to menace, harass or cause offence’ (Criminal Code Act 1995 (Cth) s. 474.17). School staff may contact their union or obtain personal legal advice if they feel that online content seriously impacts their reputation. Defamatory online content may give rise to litigation under the Defamation Act 2005 (Qld).

What about other people’s privacy?

If you upload photos of your children, be mindful of who might be in the background. You might be happy to share your child’s successes with your friends and family via social media, but some parents are not. If you are tagging or naming students, consider that other parents may not want their child’s name attached to images online.

What if I encounter problem content?

Taking the following steps may help resolve the issue in a constructive way:
• refrain from responding
• take a screen capture or print a copy of the concerning online content
• if you consider problem content to be explicit, pornographic or exploitative of minors, you should keep a record of the URL of the page containing that content but NOT print or share it. The URL can be provided to the school principal, or police, as needed for escalation of serious concerns.
• block the offending user
• report the content to the social media provider.

Legislative Delegations

Legislation

• Anti-Discrimination Act 1991 (Qld)
• Child Protection Act 1999 (Qld)
• Commonwealth Disability Discrimination Act 1992
• Commonwealth Disability Standards for Education 2005
• Criminal Code Act 1899 (Qld)
• Education (General Provisions) Act 2006
• Education (General Provisions) Regulation 2017
• Human Rights Act 2019 (Qld)
• Information Privacy Act 2009 (Qld)
• Judicial Review Act 1991 (Qld)
• Right to Information Act 2009 (Qld)
• Police Powers and Responsibilities Act 2000 (Qld)
• Workplace Health and Safety Act 2011 (Qld)
• Workplace Health and Safety Regulation 2011 (Cwth)

Delegations

Under the Education (General Provisions) Act 2006, state school principals are responsible for “controlling and regulating student discipline in the school”.

Principals are afforded a number of non-delegable powers to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

• Education (General Provisions) Act 2006 Director-General’s delegations
• Education (General Provisions) Act 2006 Minister’s delegations
• Education (General Provisions) Act 2006 Director-General’s authorisations
• Education (General Provisions) Regulation 2006 Minister’s delegations
• Education (General Provisions) Regulation 2017 Director-General’s delegations
